### PROFESSIONAL SUMMARY

Information Systems graduate and Full-Stack Software Developer focused on building high-performance web applications, native Android tools, and enterprise database systems. Skilled in Java, Kotlin, TypeScript, React, Next.js, Android SDK, and relational MySQL architecture.

### WORK EXPERIENCE

**ICT, Networking sector intern | South Ethiopia Finance Bureau** 2025-07 — 2025-09 (South, Ethiopia)

- Made a website that mentors new interns in this sector

### TECHNICAL SKILLS

**Languages & Core:** Java, Kotlin, TypeScript, JavaScript, Python, C++, SQL  
**Frameworks & Libraries:** Next.js, React, Node.js, Android SDK, Jetpack Compose, Tailwind CSS  
**Cloud & DevOps:** Vercel, Git/GitHub Actions, PostgreSQL

### KEY PROJECTS

**GPA Calculator - Academic Performance Tool** [\[Link\]](#) Next.js • TypeScript • Tailwind CSS • React

Interactive web app designed for students to calculate course grades, simulate cumulative GPA scenarios, and visualize semester progression. Deployed live on Vercel

- Real-time weighted credit calculation and dynamic target GPA forecasting.
- Clean, distraction-free interface built with Next.js and Tailwind CSS.
- Local state persistence for instant session saving and quick updates.

**AI Resume Builder - AI-Powered Career & Resume Generator** [\[Link\]](#) React • Next.js • Tailwind CSS • Gemini API

Intelligent web app that parses raw developer experience text, optimizes content using LLM APIs, formats tailored PDF resumes, and exports structured JSON portfolio schemas.

- LLM-driven resume optimization and automated skill extraction from raw text.
- Structured JSON schema export for seamless personal portfolio synchronization.
- Real-time PDF document rendering with customizable minimalist themes.

**Instagram Analyzer - Client-Side Connection Analytics Tool** [\[Link\]](#) React • JavaScript • Tailwind CSS

Sleek, private, 100% client-side Instagram follower analyzer & connection timeline tool. Track unfollowers, mutual connections, and follow history with zero login credentials required.

- 100% client-side data parsing — zero login credentials or server uploads required for complete privacy.
- Comprehensive analytics for unfollowers, non-followers, mutual connections, and account fans.
- Interactive follow timeline and engagement analytics built with React and Tailwind CSS.

### EDUCATION

**Hawassa University — Bachelor of Science in Information System** 2023-03 — 2026-06 | Hawassa, Ethiopia

GPA: 3.19 / 4.00 With National Exit Exam Score of 85%
